\*This catalog cancels all previous lists and special quotations.

\*Plants are packed in corrugated cardboard cartons and on arrival should be examined first and then signed for. Notify the express company if there is any damage, and file your claim immediately with them.

\*This catalog contains a selection of large mature plants in Cattleya, Cymbidium and the popular "Cocktail Orchid"<sup>R</sup>. They are offered for sale during the 1957 shipping season which extends from April 1st to November 1st. All plants are well established individuals which have flowered at least once.

\*All plants offered were raised by Clarelén Orchids; they represent the best that modern botanical science can produce. Our utilization of the most efficient large scale methods enables us to price the plants so that all may obtain a wide selection of these outstanding orchids.

\*Our many friends in Hawaii, Puerto Rico and other overseas countries may wish to specify air mail shipments. The new air mail rates allow shipping costs to be reduced materially. You will find the service to be faster and more satisfactory than air express, although of course, we will ship by any method you specify.

\*Shipments within the United States will be sent via Railway Express collect and out of pot unless otherwise specified.

\*We plan to issue additional price lists during the season, each devoted to a single group of genera. These more complete lists will include plants available in limited quantity. Our stock of choice Cymbidium and Cattleya hybrids is very large. Those listed in this catalog are only a sample of the forms which are available in abundant numbers. In addition, we have many varieties with only two or three plants of each. If you do not find what you wish in this catalog, please write us for a special quotation on your particular needs.

\*All plants are offered subject to prior sale. Terms: cash with order; packing free of charge; shipping costs extra. For overseas shipments, time will be conserved if you will include estimated shipping costs with your order.
